

**Construction and Finish**

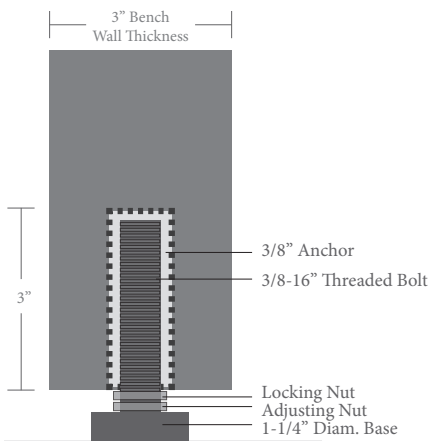

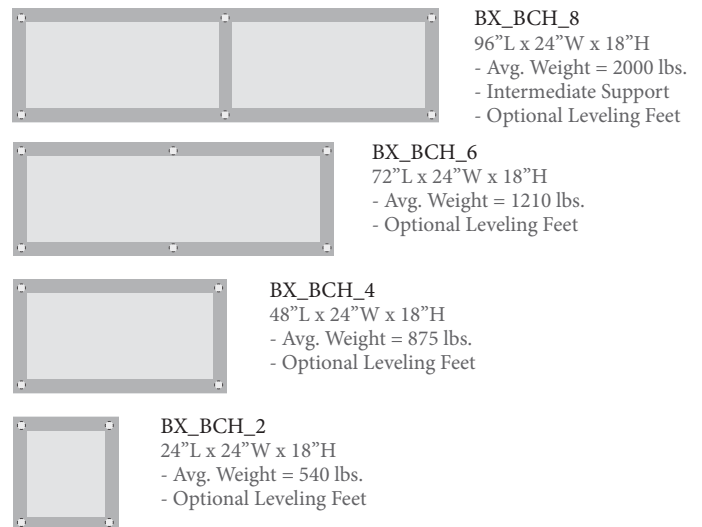

1. The Box Bench Series are 3 inch thick cast concrete bench with an approximate 1/4" radius on all edges. They have an average strength tested at 28-30 days of 5,810 psi.
2. Optional leveling feet are available for an upcharge per unit. Leveling feet with anchor inset, mount type swiveling stud, and locking nut. Thread size is 3/8-16, base diameter is 1-1/4" with an individual load capacity of 3750 lbs. Feet are stainless steel base, construction, and finish.
3. Benches are lightly sanded and sealed, to enhance color and protect surfaces from moisture, dirt, and stains.

**Design Placement**

1. Benches are not designed to take impact to edges from skateboards or rollerblades. Form and Fiber does not warranty benches against such types of impact nor the application of protective edge guards which can also fracture bench edges.
2. Caution should be given to placement and exposure to urban activities.

**Box Bench Footprint**

⊠ Denotes placement of optional leveling feet per unit.  
Note: Leveling feet will add a minimum of 1" to overall height of bench.
