Construction and Finish

1. The Echo Bench Series is constructed of a steel powder coated base with a 1" thick ipe wood plank seat.
2. Ipe can be left raw or have "Ipe Oil" protectant applied prior to shipment. (Images at Right show Ipe Oil applied)
3. All units have stainless steel leveling feet, with a mount type swiveling stud, and locking nut. Thread size is 3/8-16, base diameter is 1-1/4" with an individual load capacity of 3750 lbs. Feet are stainless steel base, construction, and finish.

Design Placement

1. Benches are not designed to take impact to edges from skateboards or similar activities. Form and Fiber does not warranty benches against such types of impact.
2. Caution should be given to placement and exposure to urban activities.

Powder Coat Colors

1. Standard F&F stock powder coat colors are offered in satin and matte finishes as noted.
2. Non-standard stock RAL colors and metallics are available and may require an additional up-charge per unit.

Standard Sizes

style	l x w x h	avg. wt.
ECHO_BCH_18-8	96" x 18" x 18"	400 lbs
