### CONSTRUCTION

- The Essentials Series Corten Steel Planters are constructed of ASTM A606 Type 4 Corten Steel. Planters are fabricated using a 12 ga. thickness. Planters are offered in two finish options:
  - Un-weathered; no exterior sealant
  - Pre-weathered with exterior sealant
- Planters are manufactured with standard 1", 1.5", or 2" drain holes or no drain holes. Quantity and placement as directed by Purchaser. Holes are cut to nominal O.D. for standard PVC pipe trade sizes.

### PRE-WEATHERED FINISH

- Planters do not weather with consistent color and patina among groups. Units weather at varying rates and develop coloration which is unique to each individual unit. (Standard level of finish shown)
- Standard sealant is a light metal sealant with matte finish applied to exterior and is a temporary sealant for handling. Units will continue to oxidize, patina will darken and sealant will wear off.
- Purchasers should exercise caution in placement as units may leach onto adjacent surfaces until fully weathered and self sealed.

### STANDARD LIP

- Standard lip = 1" wide lip + 3/4" return

### CUSTOMIZATION

- Fabrication of F&F Corten Steel Essentials Series can be customized to designer specified sizes for L X W X H. Custom size units will be priced on labor, material, and thickness.

### PRE-WEATHERED FINISH

### ESSENTIALS SERIES CORTEN STEEL STANDARD SIZES

PRODUCT ID	LENGTH	WIDTH	HEIGHT	MATERIAL	THICKNESS	AVG. WT.
ES_40C	26"	26"	40"	corten steel	12 GA.	129 lbs
ES_30C	30"	30"	30"	corten steel	12 GA.	113 lbs
ES_24C	48"	24"	24"	corten steel	12 GA.	116 lbs
ES_24.2C	48"	48"	24"	corten steel	12 GA.	180 lbs
