

ECHO\_BCH\_24-2

ECHO\_BCH\_24-4

ECHO\_BCH\_24-6

ECHO\_BCH\_24-8

### CONSTRUCTION

1. The Echo Bench Series is constructed of an aluminum powder coated base and a 2" thick wood seat.
2. All units have stainless steel leveling feet, with a mount type swiveling stud, and locking nut. Thread size is 3/8-16, base diameter is 1-1/4" with an individual load capacity of 3750 lbs. Feet are a stainless steel base construction and finish.

### DESIGN CONSIDERATIONS

1. Benches are not designed to take impact to edges from skateboards or similar activities. Form and Fiber does not warranty benches against such types of impact.
2. Caution should be given to placement and exposure to urban activities.

### WOOD OPTIONS

1. Designers can specify these bench applications in any of the wood options below.

Thermory (Ash)     Kebony (Pine)

Americana (Oak)

*(Reference Manufacturer's Wood Options Material Palette Sheet for more information)*
